

Interim Report | 2003 Guinness Peat Group plc

GPG

Chairman's Statement

Another 6 months of steady progress, of which the outstanding feature was the successful conclusion to the takeover offer for Coats plc. As a consequence, GPG now holds 64% of the joint venture company which, in turn, holds 100% of Coats ordinary shares

The joint venture acquisition cost approximately £400 million, which was partly financed by an advance of £248 million from Bank of Scotland. Subsequently, this is being consolidated with Coats own borrowings so that the financial profile will be – Shareholders' Funds £149 million and various bank loans £483 million (£446 million net of cash). It is intended to reduce borrowings to a more permanent lower level and in the first instance various surplus properties will be sold and the UK bedwear manufacturing business is in negotiations for sale. After a series of disposals in recent years, Dorma bedwear is the last remaining "non core" division and Coats is now otherwise, for the first time in decades, exclusively focussed on its traditional thread business in which it is the clear world leader.

Coats has a proud history, having been listed on the Stock Exchange since 1909 and, in its prime, was reputed to be the largest company in the UK. It has always been synonymous with the best of British industry, although the changed economics of textile manufacture means that much of the company's overall production is now located in developing countries around the world (operating with 31,000 employees in 63 countries, including manufacturing plants in 40 of those).

The future performance of Coats will obviously be an important component of GPG's results and we are confident it will be a worthy contributor. In conjunction with the takeover offer, GPG received a pre acquisition dividend of £4.5 million less a preliminary accounting loss of £1.3 million, both of which are included in the half year accounts.

GPG's cash balance at 30 June was £156 million which is slightly at the higher end of our normal desired operating range. As we have stated before, there is a cost involved in maintaining a high level of liquidity but, in our view, it is more than compensated by advantages of flexibility, safety and the capacity to act quickly when required.

Consistent with our cash philosophy, we are currently making another issue of capital notes in New Zealand which also facilitates an increased level of investment in New Zealand companies, notably to date, Turners & Growers, Rubicon and Tower.

GPG provided strong support for Tower's "rights" offer and now holds 17% of the issued capital. The original proposal to subscribe for 30% of Tower was not well received by other major shareholders, possibly due to a failure to recognise that the NZ\$200 million capital injection is only the first of a number of measures requiring strong and experienced proprietorial input to redress what has emerged as very poor management and direction since demutualisation.

Since GPG's previous NZ\$250 million capital notes issue in 2001, the NZ\$ has appreciated quite considerably but GPG's liability is fully hedged against a payment of £70 million (=NZ\$195 million at current exchange rates) in 2006 and interest accruals well below the initial 9% coupon rate.

The half year result includes profits on the sales of shares in **Abelle** (which we received as consideration in a takeover offer for our previous 42% holding in **Aurora Gold**), **Turners Auctions**, **Brickworks** and **Caltex**. There was also an exchange gain of £27 million on the value of Australian and New Zealand assets of which £14 million is recorded in the revenue accounts and £13 million transferred direct to reserves. This effectively reverses corresponding losses in past years' accounts and reinforces the view that GPG's diverse currency exposure is neutral in the long run.

A big disappointment, particularly after earlier success, has been the recent performance of **Dawson International**, the Scottish textile and "Ballantyne" cashmere manufacturer. As a consequence, we have written down the book value of the shares to 10p each, closer to the anticipated level at which GPG will have the option to subscribe for more shares. This results in a charge to profits of £9 million, of which some is so called "equity accounting" and the balance correctly denominated. GPG is now taking a much stronger role in Dawson's management and direction.

GPG was a somewhat reluctant seller of the residual 5% holding in Brickworks which had been a very good investment over a 3 year period, (partly due to our own agitation for change). However, Brickworks has paid a very full price for the acquisition of Bristile which, although undoubtedly the right industry move in the longer term, loads an additional A\$600 million of debt on an already distorted capital structure, so GPG prefers to watch from the sidelines, at least for the time being.

The updated "simplified" Balance Sheet provides a useful snapshot of GPGs investment profile as distinct from a conventional group balance sheet. Since 30 June, there has been increased investment in Tower, various UK portfolio stocks and the sale of part of Staveley USA but otherwise no material change.

So far, there has been plenty of activity in the second half, which, hopefully, will convert to another satisfactory result for the full year to 31 December 2003.

Independent Review Report

Introduction

We have been instructed by the company to review the financial information for the six months ended 30 June 2003 which comprises the consolidated profit and loss account, the consolidated balance sheet, the consolidated cash flow statement and related notes 1 to 10. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the company in accordance with Bulletin 1999/4 issued by the Auditing Practices Board. Our work has been undertaken so that we might state to the company those matters we are required to state to them in an independent review report and for not other purpose. To the fullest extent permitted by law, we do not accept or assume reponsibility to anyone other than the company, for our review work, for this report, or for the conclusions we have formed.

Directors' responsibilities

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by, the directors. The directors are reponsible for preparing the interim report in accordance with the Listings Rules of the Financial Services Authority in the United Kingdom which require that the accounting policies and presentation applied to the interim figures are consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

Review work performed

We conducted our review in accordance with the guidance contained in Bulletin 1999/4 issued by the Auditing Practices Board for use in the United Kingdom. We did not review the comparative information presented as at and for the six months ended 30 June 2002. A review consists principally of making enquiries of group management and applying analytical procedures to the financial information and underlying financial data and, based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with United Kingdom auditing standards and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information. This report, including the conclusion, has been prepared for and only only for the company for the purpose of the Listing Rules of the Financial Services Authority in the United Kingdom and for no other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 30 June 2003.
